SUCCESSFUL APRN GRADUATES

VASNHS has an extensive history of cultivating talented and passionate nursing professionals. Establishing a residency for nurse practitioners highlights the organization's commitment to affirming advanced practice nursing.

WE CHAMPION

NEW APRNS

VASNHS's nurse practitioner residency aims to develop entry level APRNs into prepared, novice providers through didactics and interprofessional clinical experience to improve access to care for Veterans with complex primary care and mental health care needs.

1

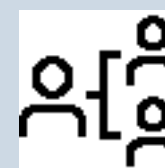

PROFILE OF
VASNHS

VA Southern Nevada Healthcare System serves one of the fastest growing Veteran populations in the country. VASNHS offers services from five outpatient clinics offering integrative primary care and mental health care across the Las Vegas Metropolitan area. In addition, VASNHS opened its \$600 million, state-of-the-art VA Medical Center in 2012. Over the last decade, VASNHS has served one of the fastest growing Veteran populations in the country. Nurse practitioners at VASNHS are not just practicing in ancillary roles—they are essential to the organization's mission.

We value
TRAINING

Trainees are vital members of our organization. We are proud to offer the only residency for nurse practitioners in Nevada in both primary care and mental health.

We jumpstart
NETWORKING

Residents collaborate and learn from our excellent clinicians. These connections improve Veteran care and help the VA find high quality providers.

We believe in
MENTORSHIP

We ensure that every shift, residents receive one-on-one supervision from their preceptor to ask questions and receive feedback.

We accelerate
GROWTH

We encourage and support our residents maintain their well-being and work-life balance.

2

PROGRAM STRUCTURE

6

NUMBER OF NP
RESIDENTS

Small group of new nurse practitioner peers have the shared experience transitioning to APRN role in an interprofessional environment.

1600

CLINICAL HOURS AT
COMPLETION

Residents engage in robust, in-depth clinical experiences to raise their competency and confidence in their clinical skills.

40

HOURS

Residents work 40 hour work weeks which including time for didactics and learning activities. No mandated time on-call or overtime.

RESIDENT SUCCESS IS CENTRAL

Early on, program directors will meet with residents to identify their learning needs, professional goals, and potential career paths. Residents are encouraged to participate in VA and non-

VA training opportunities that grow their knowledge in areas of interest. Lead an evidence-based project focusing on quality improvement.
